

DETAILS FOR COMFORT AND EASE

The quality of Yutong ZK6137BEV is visible from every detail as an innate high-end bus. Its multiple human-centric designs bring to passengers comfort and comprehensively higher satisfaction.

- A new generation of luggage rack, semi-hidden brackets and diffused light strips realizes a larger space that balances aesthetics with practicality
- Spacious flat floor with less obstacles and more freedom of movement
- New-style air outlet with more air uniformity and adjustment convenience

- New instrument cluster: "car-like" layout of central control, intelligent and convenient for car-like driving experience
- Double-barrel instrument panel featuring integrated information display is fitted with long instrument shades against light reflection, which brings a greater sense of technology
- Multi-functional steering wheel to reduce driving fatigue and improve driving experience
- 10.4-inch integrated central control with driver audio partition and Bluetooth to reduce driving fatigue and increase driving delight
- Fully automatic headlights and wipers that reduce driver workload and improve driving safety and comfort

EASY CONTROL AND INTELLIGENT DRIVING

The newly designed Yutong ZK6137BEV driver area is more human-centric and convenient to operate, allowing for more ease on the road!

SPECIFICATION - ZK6137BEV

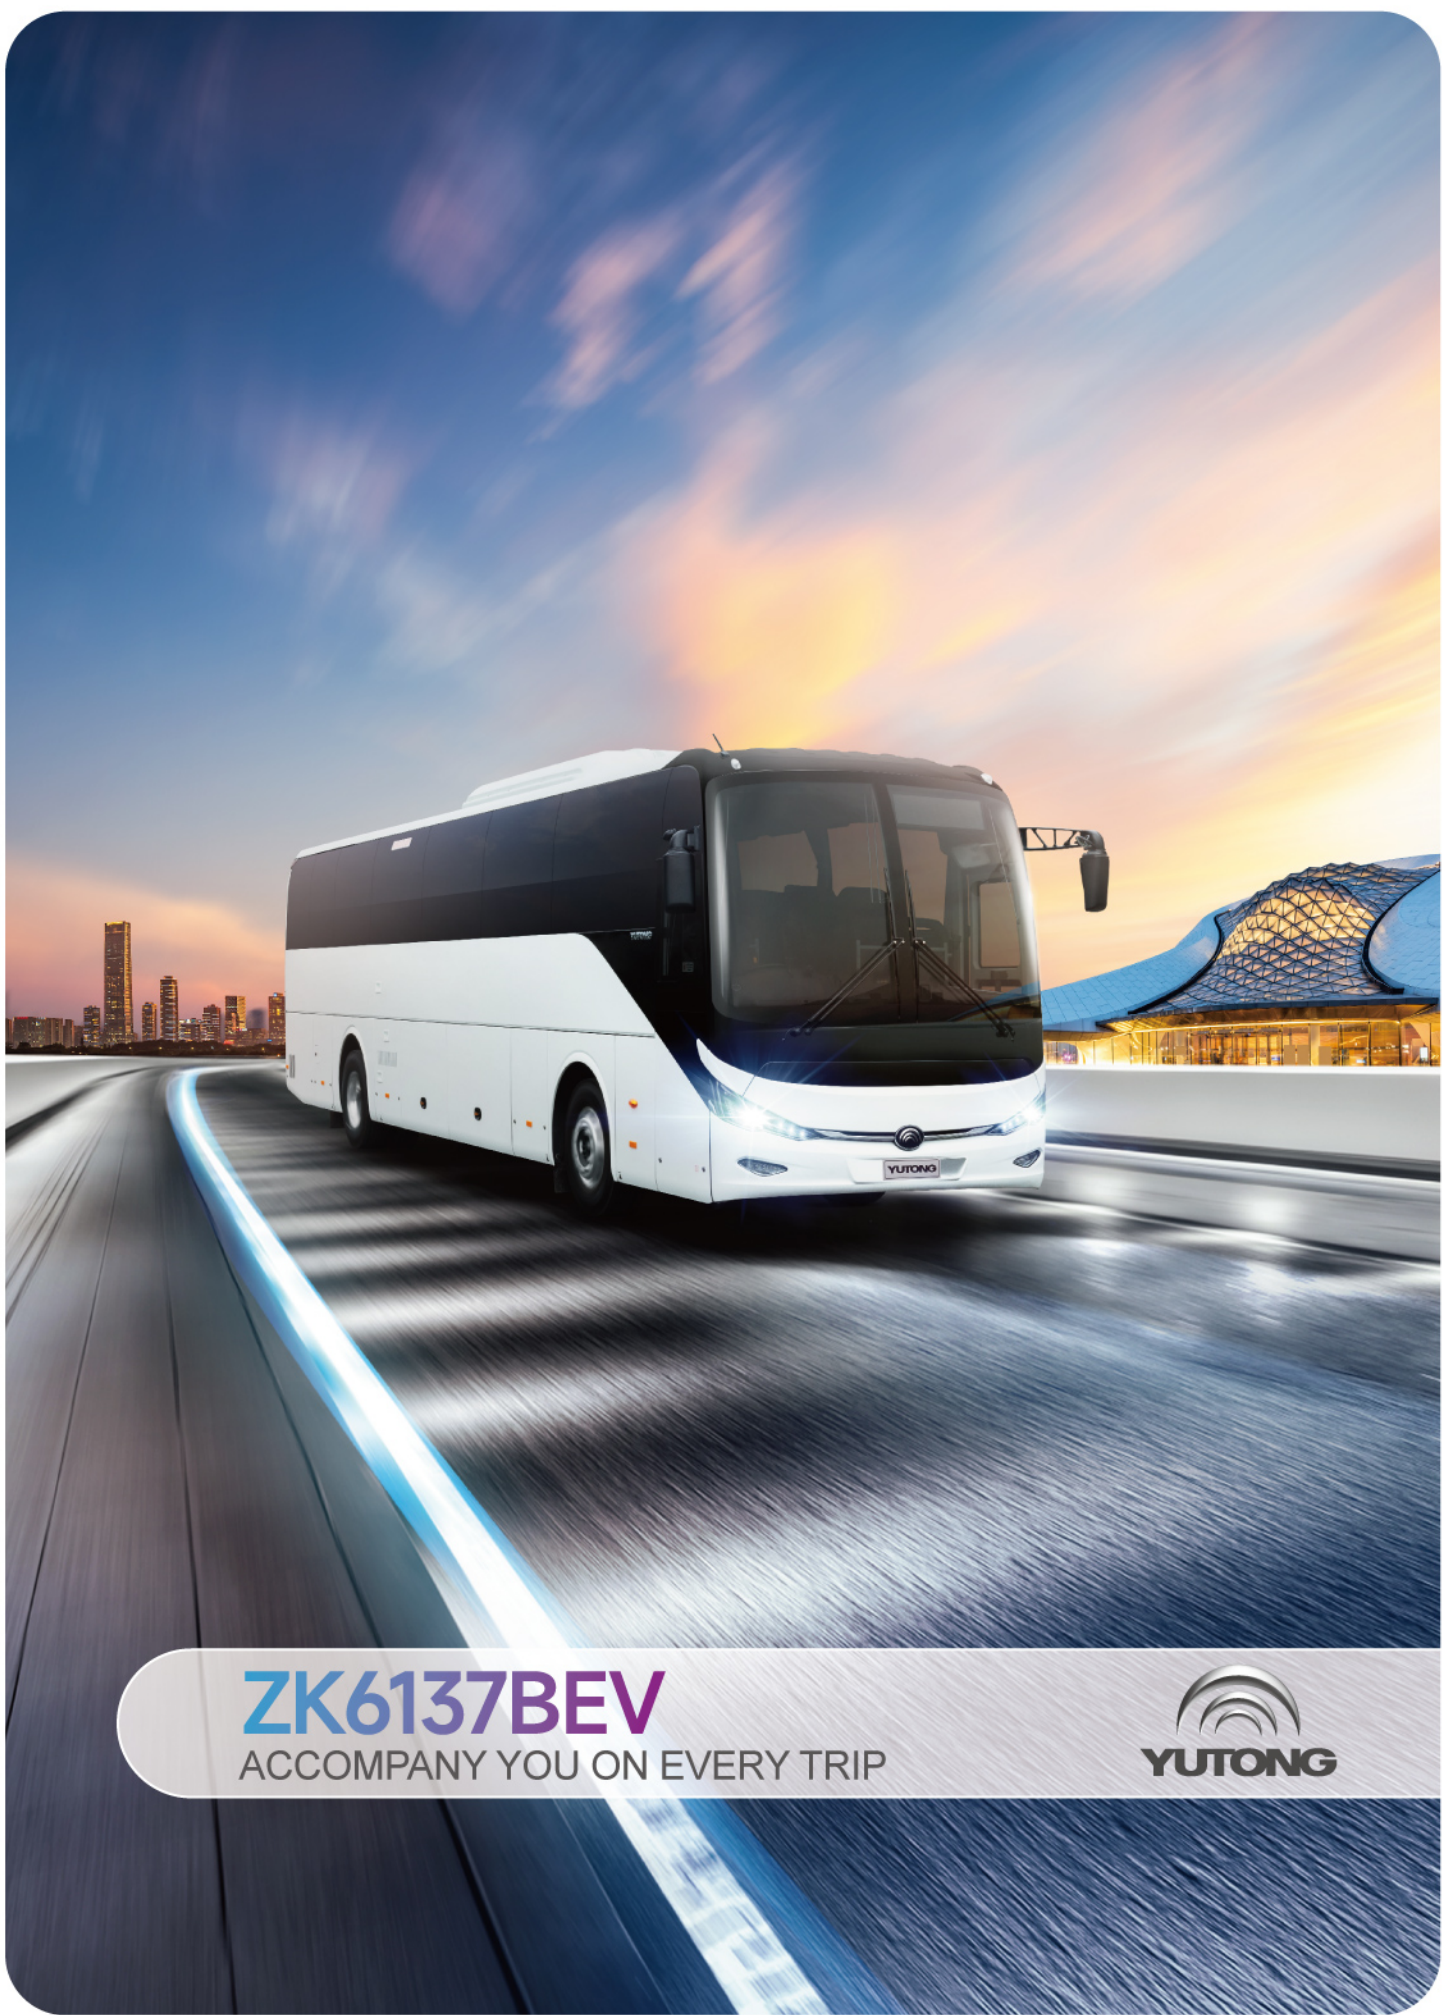

Item	Standard
Overall L*W*H (mm)	12370*2500*3610
Wheelbase (mm)	6450
Manufacturer's max. gross weight (kg)	18000
Min. turning diameter (m)	≤24
Motor rated power (kW/rpm)	215
Motor rated torque (N.m/rpm)	1260
A/C cooling capacity (Kcal/ h)	38000Kcal/ h
A/C heating capacity (Kcal/h)	36000Kcal/h
Luggage compartment volume	5.65
Suspension	Air suspension
Steering gear	Imported steering gear
Tire	Michelin 295/80R22.5
Rim	Aluminum alloy rim (polished)
Battery	CATL LFP
Seats	51+1 / 53+1 / 57+1
Seat layout

ZK6137BEV
ACCOMPANY YOU ON EVERY TRIP

ZK6137BEV

Standing by the operation philosophy of "putting customers at center", Yutong ZK6137BEV seeks R&D progress and innovation by building on proven advantages and relying on innovation platforms in pursuit of quality and excellent performance. It is "tailor-made" in terms of safety, reliability, durability and the comfort of driving and riding, to re-upgrade NEV core competitiveness and to create greater value for you.

Yutong ZK6137BEV keeps you company with heart on every pleasant trip.

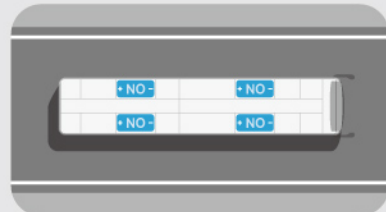

BETTER BUS BETTER LIFE

SECURE YOUR PLEASANT TRIP

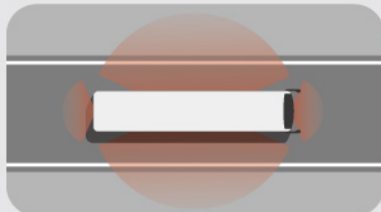

TECHNOLOGY FOR SAFETY AND SECURITY

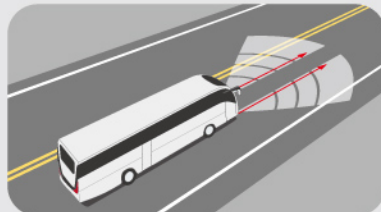

Regarding the safety of passengers and drivers as the core of bus technical performance, Yutong ZK6137BEV provides all-round safety protection for passengers and drivers through optimization of the structural design and adaptation of safety systems and protective devices.

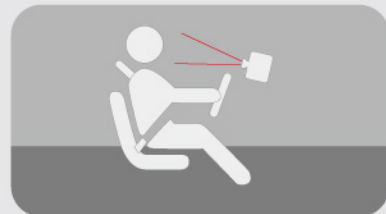

Pioneered traction battery that features the nitrogen protection system and ReGuard safety technology solutions for travel safety

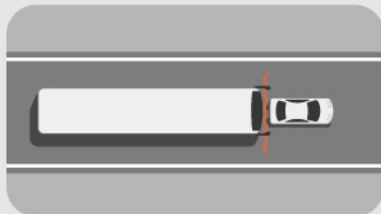

360 panoramic view, audio and visual alarm, safe and reliable driving aids [optional]

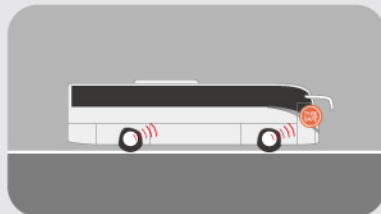

Lane departure and collision warning to identify danger and ensure safety

Driver fatigue warning as your personal safeguard [optional]

Impact absorbing system for additional safety of drivers and passengers in case of extreme accidents

Tire pressure monitoring and tire blowout emergency device to free every drive of troubles [optional]

HIGH QUALITY WITH EFFICIENCY AND RELIABILITY

Based on the concept of human-centered driving experience, Yutong ZK6137BEV, a masterpiece of details, features numerous configurations, top-level workmanship and reliable quality that is able to meet diversified needs and help you operate free from worries and troubles!

Upgrade of "dual-powered" steering to improve the reliability of the vehicular steering system

Double protection of battery packs up to the level of IP68+IP6K9K; liquid-cooling battery system to realize intelligent maintenance

350kW high-power motor for fast acceleration and efficient operation

High efficiency PMSM that outputs power with energy recovery to effectively extend driving range

Integrated HV control system that leads the industry in terms of integration, EMC, flame retardant grade, protection grade, etc.

Maintenance-free transmission shaft without oiling trouble for 500,000 km to save maintenance costs

Luggage compartment pressurization that makes the interior cleaner and more comfortable [optional]

European standard double charger that improves charging efficiency and durability, as well as the convenience of energy supply [optional]

I-Card! IoT system for remote monitoring of vehicle location, fault detection, etc., and the new experience of intelligent connection [optional]

EXCELLENCE WITH EXQUISITE APPEARANCE

Excellent both internally and externally, Yutong ZK6137BEV features a simple and streamlined appearance as well as a stylish and wide body, creating strong visual impact and highlighting the sense of fashion to bring you a refreshing visual enjoyment.

- Inheriting the classic design of 7 series, it ingeniously combines technology and aesthetics
- Removable front flap cover for easy maintenance of lamps and wipers
- Combination of automatic LED headlights and daytime running lights that is more durable, brighter and aesthetic
- Fully automatic long wiper for more comfort, ease and safety
- The 790mm clearance of central truss in the luggage compartment is 200mm higher than that of the previous generation, totally sufficient for the 28-inch luggage transfer and convenient for luggage storage and collection.
