

# ENROUTE+

Fast, professional and attentive service

BETTER SERVICE, ALWAYS ENROUTE

- ◇ Global Network

  - 3 self-operated stations
  - 56 mobile service teams
  - 337 authorized stations
  - Covering 112 key markets
- ◇ Genuine Parts Supply

  - 11 parts distribution centers, 92 forward warehouses
  - 15 years of genuine parts supply expertise
  - 1-year warranty for assembled parts (see Note for details)
  - Over 50,000 types of parts, with a stock value of \$48 million
  - The warranty period for the entire vehicle is 36 months or 120,000 kilometers, whichever comes first
- ◇ Intelligent Service Platform

  - Link + platform for one-click repairs
  - 100% transparent service
  - Online quick access to service materials
- ◇ Professional Direct Service Guarantee

  - 647 professionals of global direct service team
  - 365-day on-site presence
  - 72-hour resolution for common issues under warranty
  - Customized service solutions to ensure comprehensive support

Note: Applies to engine, transmission, and axle assemblies purchased through Yutong channels and installed by Yutong service stations, authorized outlets, or Yutong employees.

LAYOUT OF SEATS

Sliding passenger door + barn doors| 13+1 seats

Sliding passenger door + barn doors| 14+1 seats

Vehicle Configuration			
Basic parameters	Rated power (kW/rpm)	120/3, 500	
	Rated torque (N.m/rpm)	400/1, 500-2, 750	
	Displacement (L)	2.298	
	Emission standard	Euro VI/Euro V/Euro III	
	Fuel type	Diesel	
	Drive mode	Front-engine rear-drive	
	Length x width x height (mm)	5,990×2,090×2,650	
	Wheelbase (mm)	3,850	
	Maximum gross mass (kg)	4,495	
	Maximum gradeability (%)	40	
	Axle	Front disc and rear disc (front independent axle and rear rigid axle)	
	Fuel tank	80L plastic fuel tank	
Power steering type	Hydraulic power steering		
	Tire	195/75R16C	
Safety	ESP (including ABS and ASR)		●
	Auto door unlock upon flameout + auto door lock upon speed sensing		●
	Rear parking radar (front parking radar optional)		●
	Intelligent control of wiper and headlamp		●
	Driver SRS (supplementary restraint system) + pre-tensioned seat belt		○
Comfort and convenience	Lane departure and collision warning system, driver fatigue warning function		○
	Blind spot detection (BSD) and lane change assist (LCA)		○
	Smart key (passive entry optional)		●
	One-button start		●
	sliding passenger door + barn doors		●
	Driver/front passenger power window (anti-pinch function + one-button regulation optional)		●
	Electric exterior rear-view mirror (electric heating and defrosting optional)		●
	Front and rear dual-zone A/C		●
	12.3-inch integrated central control (with reversing image function)		○
	360° panoramic view system		○
	Mechanical shock-absorbing driver seat		○
	USB interface (standard configuration in driving area and optional configuration in passenger zone)		●
	Engine CCS (optional for automatic transmission)		○
Appearance and interior trimming	Sliding door (with sliding window) + light grey fully glazed (no sliding window on either side)		●
	High-mounted brake lamp		●
	LED headlight + LED taillight		●
	Multi-function steering wheel		●
	Oak grain floor covering		●
	Steel wheel rim		●
	Aluminum alloy rim		○
	Chrome plating for front wall cover		○
	Tawny soft cloth strip curtain		○

“●” Standard, “○” Optional

January 2025 edition

## RELIABLE AND DURABLE >>>

### 2,000,000+ KM WORRY-FREE OPERATION

- CAE analysis comprehensively enhances driver fatigue resistance.
- Whole vehicle robot welding guarantees strength.
- The industry's first 2 million km verification of the whole vehicle, equivalent to 50 laps around the equator.

The industry's first  
**2,000,000km**  
Verification of the Whole Vehicle  
(50 laps around the equator)

### 20-YEAR ANTI-CORROSION PROTECTION

- 15-step zirconium electrophoresis prevents whole vehicle structural corrosion for 20 years.
- Nuts, brackets, and other parts are made of zinc-nickel alloy material or treated with a zinc-nickel coating, plus phosphating and waxing for extra protection.
- The vehicle is proven corrosion-resistant for over 20 years, ensuring durability and quality. It still remains in excellent condition, even after reliable operation for decades.

## ULTRA SAFE >>>

### VEHICLE AND SEAT SAFETY

- The vehicle features a high-strength steel closed-ring structure, with over 55% high-strength steel.
- Key parts use thermoformed ultra-high-strength steel (1,500 Mpa tensile strength), comparable to an adult elephant standing on a soybean.
- The vehicle has passed the 50 km/h dynamic collision test and 2.5-roll rollover test with high scores, ensuring no occupant injuries.

### INTELLIGENT ACTIVE SAFETY

- Bosch ESP system (standard configuration) reduces fatal accidents by 43%.
- Automatic LED lighting and wiper ensure clear vision in harsh environments.

12.3-inch central screen (optional).

## COMFORTABLE DRIVE AND RIDE <<<

### 7-INCH FULL LCD INSTRUMENT

- Intelligent information display shows full vehicle status at a glance.
- User-friendly interface provides key information prompts, making the driver more concentrated.

### COMFORTABLE SEAT

- The driver seat offers 6-way adjustment (optional: mechanical shock absorption) to reduce long-drive fatigue. Pre-tightening seat belts are also optional for enhanced safety.
- The passenger seat has a human-machine curve design with superior support, wide-angle adjustable backrest, seat belt reminder, optional multi-position adjustable armrest and USB charging port.

## ROBUST POWER <<<

### HIGH PERFORMANCE ENGINE

- 2.3T diesel engine, 163 hp, 400 N·m torque, delivering strong power.
- Engine thermal management ensures strong and stable power output.

### HIGH TRANSMISSION EFFICIENCY

- 6MT transmission with easy gear shifting and 99% efficiency, delivering high fuel economy.
- 9AT automatic transmission with 97% efficiency and millisecond electronic shifting, ensuring smooth operation(Optional).
